**EUROPEAN VALVE  
AUTOMATION CENTRE**

# *p o w e r*

**EVAC b.v., European Valve Automation Centre b.v.** is based in The Netherlands at the heart of the industrial triangle Rotterdam - Ruhr area Germany - Antwerp.

## **Introduction**

Since it was founded, EVAC has earned a good reputation for offering optimum valve solutions for standard and harsh applications in the **petrochemical, gas, power, water plants**, civil construction services, shipbuilders and general industry. Together with support from the world leading valve and valve controls manufacturers, EVAC has the experience, know-how and product range to meet the needs of almost any application in above industries. Our principal objective is to be our clients' favourite valve supplier.

BALL VALVES - BUTTERFLY VALVES - CHECK VALVES - GATE VALVES - GLOBE VALVES -

## **Sales & Procurement**

A correct product selection and the advice for the service can be done by a simple phone call. Whether it is that single item you needed yesterday or your complex request for quotation with technical specifications consisting of over 100 items, our sales engineers treat all enquiries with care ensuring that client requirements are adhered to and that international standards are satisfied.

## **Quality**

EVAC supplies valve packages that are tested and shipped with the appropriate test certificates. We are committed to a quality policy in order to consistently meet the customer's demands and expectations and agreed-upon requirements for all products and related services.
